

Hopkinsville Reunion.

THURSDAY, OCTOBER 17, 1890

PERSONAL GOSSIP.

Mrs. J. I. Landis will go to Chicago Thursday.

Mrs. J. Q. Thomas, of Longview, has moved to the city to live.

Miss Mary Rafter is in St. Louis, visiting Mrs. Porter Marlowe.

Mrs. W. J. Huggins, of Canton, was in the city yesterday on business.

Mr. E. B. Bassett is back from a second purchasing tour in the East.

Mrs. Susan Jones, in visiting the family of her brother, Mr. John A. Steele, near Grassy.

Dr. Frank Boone, of Lafayette, passed through the city yesterday afternoon enroute to Louisville on a business trip.

Misses Laine and Julia Venable, Rose Day, Bessie Bicknell and Edna Boone are attending the World's Fair week.

Mr. Joseph White, of Fairview, left this week for Seaside, Mo., to visit relatives he has not seen for twelve years. He will remain two weeks.

CREAM OF NEWS.

His Horse Fell on Him.

James Pearson, of Hopkinsville, a village of five miles west of Cobb station, was out riding with some companions one day last week when his horse fell on him, throwing him on his head, the horse falling over him as he rolled over. The young man's neck and head were badly injured, and his spine is thought to have been hurt. He has been unconscious since the accident, and the chances for his recovery are slim. He is a very popular young man and the casualty is much regretted by all who know him.

O. W. Train of the "Track" was out in an acre and a quarter of ground this year.

Remember Dr. Appleman, the celebrated specialist, will be here next Thursday. The afflicted should see him.

The third story of the warehouse of the Biometrical Carriage Company will be completed in two or three weeks.

After being to the depth of 47 feet, Squire G. W. Winfree struck water and the foundation of the new hotel laid Saturday.

Pianos and organs sold by Geo. H. Smith were awarded the highest sum of the World's Fair. Official Miss Ida Allen.

The people of Springfield, Tenn., raised \$1,250 for the Red Cross which he was conducting the recent meeting in that place.

The worst storm on the Southern coast did not damage the orange crop of Florida, and it is estimated that 4,000,000 boxes will be gathered this fall.

Nurses—I have a lot of flowers, all varieties, which I would like to sell for free. Will close them out at 50c. Mrs. M. K. Thompson, North Main street.

Pennell's total registration is 2,321. There are 1,279 Democrats, 500 Republicans, 415 non-partisans and 142 not registering. There are 628 colored voters.

Tennessee Ridge chestnuts have made their appearance upon our market. The crop is said to be a very good one, but the early gathering is going in fairs prices.

This Union Local says: "The Morgantown graded school was temporarily closed Tuesday on account of the prevalence of diphtheria. There were over 400 on the rolls."

The L. N. has been threatened with indictments for perjury by the whites and colored people to ride in the same compartments in their coaches ran between Clarksville and Memphis.

The Masonic Grand Lodge meets in Louisville this week and will be in session three days. The Lodge in this city will be represented by Mr. W. H. Olney, Worshipful Master.

The October term of the Caldwell Circuit Court convened at Princeton yesterday, Judge Pratt presiding. There are 192 cases on the docket, 100 of them very old. Of the grand jury, 101 are for violating the prohibition law, which was in effect in that county for several years.

It has been no pleasant and amiable this fall that many a year and ago there are blossoming for a second time this year. In some of the Eastern States, bordering on the Atlantic coast, the second crop of well-matured grape grapes is reported.

Mr. W. H. Halls, of Pembroke, lost about thirty thousand brick by the heavy rain of Friday. He was preparing to ship a kiln and had put out the number to dry ready for burning when they were destroyed by being flooded. His loss will amount to several hundred dollars.

The engagement of Miss Bessie Mayers, of this city, and Mr. Max J. Morgan, of Hopkinsville, Ky., which I confidentially announced about a month ago, has been confirmed, and the wedding of those popular young people will occur in January. Miss Mayers is a general favorite both in social and musical circles. She is a brunette, and her talents have caused her to be in demand for all entertainments got up both in Louisville and the adjacent towns. Mr. Morgan is the son of one of the wealthiest men in Hopkinsville. He is a beautiful young fellow in every way worthy of his good fortune in winning so fair a wife as Miss Mayers—Yettler in

When Nature Needs assistance it may be best to render it promptly, but one should not be so much in haste to use a remedy that it may be used when it is not needed. The best and most reliable remedy is the Syrup of Fig, made by the California Fig Syrup

Rich Phelps Must Answer.

The present grand jury has done what the preceding one in June failed to do—indicted Rich Phelps, and, for the killing of Wm. Beane, of Johnson City, Tenn., the engineer who was swinging when he was shot last day while at work at his place of business. The facts obtained at the time were meager, but the general impression prevailed that the killing was an impulsive murder. The young man was a stranger in the city and his only offense was a disposition to keep the space around his engine clear by shooting or kicking those who crowded about and interfered with his work. He had killed a negro boy out of his way earlier in the evening and the story grew that this was the cause of the assault made upon him by Phelps. The witnesses were all in sympathy with Phelps and most of them got up at 8 o'clock in the morning and went to the court where Beane was striking Phelps with a shovel. The present grand jury has probably done the best it could under the circumstances in bringing in an indictment for manslaughter. Whether Phelps can be convicted or not, the city is at least spared the disgrace of having a stranger shot to death in a square of the Court House without any attempt whatever being paid to the occurrence by the law and courts.

When Nature Needs assistance it may be best to render it promptly, but one should not be so much in haste to use a remedy that it may be used when it is not needed. The best and most reliable remedy is the Syrup of Fig, made by the California Fig Syrup

When Nature Needs assistance it may be best to render it promptly, but one should not be so much in haste to use a remedy that it may be used when it is not needed. The best and most reliable remedy is the Syrup of Fig, made by the California Fig Syrup
